

Grade 2 Investigations Matrix

Week 1-3

Lyndhurst Primary has a play based learning pedagogy called the Walker Learning Approach. This resource has information about play-based learning and some simple practical ways parents can provide authentic play into their homes to engage students learning during home investigations time.

Activity 1 Cooking

Help your mum or dad make a meal. It can be breakfast, lunch, dinner or a snack. Write what you made and draw a picture in your scrapbook.

Activity 2 Dramatic Play

Dress up in your favourite outfit or costume and make a video.

Activity 3 Tinkering Area

Design a new planet for our solar system. Use a range of materials from around your home.

Activity 4 Superhero

Use your imagination to create your own superhero. What will your costume look like? what is your special power?

Activity 5 Garden

You can help someone at home to garden. You can grow a seed in a cup with some tissues or dirt and watch them grow. You can try to plant something to eat.

Activity 6 Art and Craft

Use paper to create a paper aeroplane. Using your feet as a measurement, how many feet did your plane fly?

Activity 7 Writing

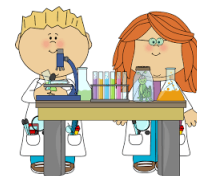

Write a letter to a friend, family member or your teacher.

Activity 8 Sensory Play

Bubbles! Using dishwashing liquid and water to create a bubble mix. What object could you use as your bubble blowing ring?

Activity 9 Science

Using an empty bottle. Ask your parents to cut the top off

**** Please note: You are more than welcome to complete these. However, this is NOT essential.**
